Subject: Proposed meeting on July 29

Hi Carol:

Thanks for responding yesterday. This will confirm that EPA will be reviewing the bioremediation work plan pursuant to Paragraph 47 of the Newark Bay order (CERCLA-02-2004-2010). Our review costs will be billed as Future Response Costs under that order.

It looks like we will be able to schedule a meeting for 10 am on July 29. We'll let you know the room number when we send an agenda. As I indicated yesterday, this would not be the "workshop" that Dr. Pardue suggested, because that would be premature; however, we do hope that if Dr. Pardue attends, we may be able to ask any questions that we have as a result of our review of the document. The larger portion of the meeting would be to discuss a number of other issues that are outstanding between us. We would plan to have the agenda to you the week that you return.

I will be out as of Monday, so if you have any questions before you leave, please contact Sarah. Have a great time on your vacation!

Pat
